

Goat anti-ApoE Immune Serum

Basic information:

Catalog No.:	UDA9097-9G	Host:	Goat
Clonality:	Polyclonal		

Useful Information:

Applications:	TIA
Specificity:	Recognizes Human ApoE.
Format:	Liquid
Immunogen:	Recombination Protein ApoE
Presentation:	Antisera against whole serums are obtained by immunizing host animals with whole serum. This product is reddish transparent liquid, containing 0.03% Proclin300.
Description:	Apolipoprotein E (ApoE) is a major chylomicron coprotein that binds to receptors on liver cells and surrounding cells. Chylomicron residues and VERY low density lipoprotein residues can be quickly removed from the circulatory system by receptor-mediated endocytosis in the liver.
Storage:	Store at 4°C short term and -20°C long term. Avoid freeze-thaw cycles.
Note:	Test systems and platform change may cause different results, please contact us if you have any questions. This product is sold for research use only. Standard Laboratory Practices should be followed when handling this material.
