

## Native Human Hb Protein

### Basic information:

<b>Catalog No.:</b>	UDP9110-9	<b>Species:</b>	Human
<b>Expression Host:</b>	<i>Native</i>	<b>Type:</b>	Full length protein

### Useful Information:

**Purity:**

> 90 % as determined by SDS-PAGE

**Formulation:**

Liquidin PBS pH7.4, containing 10% glycerin and 0.05% Proclin 300.

**Biological Activity**

N/A

**Endotoxin:**

N/A

**Storage:**

Proteins are provided as frozen liquid which are shipped with dry ice. Bulk packages can be provided as lyophilized powder which shipped with blue ice.

**Reconstitution:**

According to the application.

**Description:**

Hemoglobin (Hb) is a protein responsible for carrying oxygen in higher organisms. Hemoglobin (Hb) is the main protein in mature red blood cells. Feces with a small amount of blood is the only indications of early colorectal cancer (CRC), so it has great significance for CRC to detect hemoglobin in human stool samples.

**Note:**

This material is offered by Gene Universal for research, laboratory or further evaluation purposes.  
Not for human use. Made in China.
